

# Universal Telecom Services Inc. (UTS) first to Provide Direct Gateway access to Vietnam

*Company capitalizes on its BCC agreement with a  
Vietnamese State Owned Enterprise (SOE)*

June 15<sup>th</sup>, 2004- Los Angeles, CA, Universal Telecom Services Inc, (UTS) announced it is the first provider of International Point to Point carrier services for US long distance (PSTN) telecom services to and from Vietnam.

The Services included are:

- International Termination of Long Distance calls into Vietnam
- Voice over IP Termination
- In country Multiple voice nodes (POP's)
- Managed Bandwidth via Satellite

UTS provides these services using direct, dedicated routes via satellite by its gateway termination.

UTS garnered approval from the Vietnam Ministry of Post and Telecommunications (MPT) and the Ministry of planning and Investment (MPI) in February of 2004

Company president, Zohar Loshitzer stated, "The demand for a greater information infrastructure is accelerating in Vietnam and southeast Asia. UTS has spent several years forging alliances in Vietnam. We are proud to be the first US based "carriers" carrier for wholesale voice and IP backbone network with it's own gateway to Vietnam."

## **About UTS**

Universal Telecom Services, (UTS) is a unique service operator specializing in telecommunication services in emerging markets. The Company utilizes satellite technology to provide services. UTS has offices in the Far East (Vietnam) and in the United States. The Company has assembled a world-class team from telecommunications services and equipment providers. This team combines innovative technology with a long-term commitment to service, in order to become a leading provider of telecommunication services. In each country of operation, The Company establishes a partnership with a local company as a strong foundation for providing services.

Focusing on Satellite, UTS provides ideal fast deployment of solutions for Domestic Long Distance (DLD) and International Long Distance (ILD), private voice and data networks (IPLN), fixed local telephony for rural areas and remote locations, Internet services and distance learning.
